

Adhesive Backed Adjustable Cable Clamp

Novoflex Adhesive Backed Adjustable Cable Clamp is a one piece pressure sensitive adhesive clamp designed to reduce the time spent on electrical and electronic wiring installation and to provide a system which is absolutely foolproof, simple, safe and permanent in operation. It is widely used for securing wires and cables, or fixing and holding capacitors and electronic components of various sizes, diameters and shapes. The Ladder style fastening method can be released and easily refastened. It can be mounted in two ways, using adhesive tape backing or screw – in.

Material: Nylon 6 (Polyamide)

Flammability Rating: UL94 V-2, Resistant to Fungus, Corrosion, and most mild acids.

Standard Colour : Natural White.

Operating Temperature : -25° C to +85° C

Storage Conditions : To be stored in a cool, dark, dry place away from sunlight in a sealed condition.

Example Applications : Telecoms equipment, switchgear and control cabinets.

Adhesive Backed Adjustable Cable Clamp

Novoflex Part No.	Plate Length (A) - mm	Plate Width (B) - mm	Ladder Length (C) - mm	Ladder Width (D) - mm	Screw Hole Dia (E) - mm	Cable Dia Range - mm	Mounting Method	Standard Packing (Nos.)
ACC 1 (A)	30	21	85	12	3.6	5.0 - 21.0	Adhesive	100
