

LED Spacer

Novoflex LED Spacer are designed to provide a uniform spacing height between the LED and the surface of board, thus minimizing- shifting and height variations. They also double up as holders for the LEDs to prevent bending and tilting during handling and assembly, ensuring uniformity and production ease. They are installed easily and quickly by hand.

Material: **Nylon 6 (Polyamide)**. Resistant to Fungus, Corrosion, and most mild acids.

Flammability Rating: **UL94 V-2**

Standard Colour: UV Resistant Black.

Operating Temperature: -25° C to +85° C.

Storage Conditions: To be stored in a cool, dark, dry place away from sunlight in a sealed condition.

Example Applications: Automobiles, Railways, Aviation, Power Plants, Telecom, Consumer Durables, Retail Stores, Computers & Networking, Electric Metering, Electronics, Control Panels and many more.
